

Writers on the Web

Writers on the Web is a program that helps celebrate the incredible writing that is occurring at IVE. Student's work will be celebrated and featured on our bi-weekly school newscast, and/or on our school website under the Writers on the Web link. Some guidelines for the program are:

- Each month a new theme will be chosen for student to write to. Students may select any style of writing they want for submission: poetry, expository, narrative, descriptive, etc.. All writing pieces must be centered on the theme for that month (see themes below).
- Each month, students are able to submit 1 piece of writing to be considered to be through the Web program (see timeline for submissions below).
- Students must have parental permission to have their work on the bi-weekly newscast and/or the website. This permission needs to be attached to the writing piece when submitted.
